

Limitless ConferencingSM Toll Free

Reservationless, Unlimited Usage, Automated Audio Conferencing

Limitless ConferencingSM

Reservationless, automated audio conferencing. And it's easy and flexible to use. Using a touchtone telephone, the conference host can control the systems many features by entering conference control codes. Features include, conference recording, conference security and many other controllable options.

Limitless ConferencingSM features create a reservationless conferencing system that makes it easy to bring together your group, quickly and inexpensively.

Conference Types

- Open Discussion (Interactive)
- Lecture/Presentation/Training (One-Way)

Use Limitless ConferencingSM Toll Free with Limitless VisualsSM to combine the power of visuals with your audio conference call!

Limitless ConferencingSM - Benefits

- No long term contracts or reservations.
- No setup or cancellation fees of any kind.
- Maximum reliability - 3 state of the art call centers.
- 24 hour customer service.

Limitless ConferencingSM - Why Reservationless

•**Less Expensive** - Limitless ConferencingSM delivers the highest value and quality of service available for one low monthly fee.

•**Ease of Use** - Hosts and guests dial a toll or toll free number, enter their pin code followed by the # sign and state their name when prompted by the automated attendant. When the host arrives, the conference begins. When the host hangs up, the conference ends.

•**Fewer Mistakes** - By eliminating the elements of a reservation center and operations center, the mistakes that only a third party can make are eliminated.
